

ROTARY PRE-FILTERS

REMOVES LINT AND DUST
THAT COULD CLOG
FINAL FILTERS

Industrial Air rotary pre-filters remove large particles and heavy dust loads from the airstream. Screen options are tailored to your specific application. The heavy-

duty steel frame, direct drive gear motor, and stationary nozzle make the rotary pre-filter a very effective and reliable first stage of filtration.

Simple screen replacement
No tools required

MODEL	CAPACITY RANGE (CFM)	HEIGHT	WIDTH	SCREEN DIA.
IA RPF 50	10,000 — 15,000	5'-9"	5'-6"	59"
IA RPF 60	15,000 — 20,000	6'-9"	6'-6"	71"
IA RPF 70	20,000 — 30,000	7'-9"	7'-6"	83"
IA RPF 80	30,000 — 40,000	8'-9"	8'-6"	95"
